I recently reported three new taxa of vascular plants from Kansas (Snow 2017), including (incorrectly) “*Cenchrus atropurpureoides* (L.) Thunb.” Its correct name is *Cenchrus alopecuroides* Thunb.

Although the specific epithet reported was simply incorrect, the nomenclature associated with this name is not straightforward and is summarized on TROPICOS at <<http://www.tropicos.org/Name/25526770>>.
