ABSTRACT

Leptosiphon montanus (Greene) J.M. Porter and L.A. Johnson (2000) and *L. minimus* (H. Mason) Battaglia (2001) were based on errors in citing basionyms and, per Shenzhen Code 41:8 (2018), were not validly published. Those errors are corrected here.

Leptosiphon montanus (Porter & Johnson 2000) was based on *Linanthus montanus* (Greene) Greene, which was originally named *Linanthus ciliatus* (Benth.) Greene var. *montanus* (Greene 1892). Porter and Johnson cited *Linanthus montanus* (Greene) Greene Erythea 3: 120. 1895 (as "*Linanthus montanus* Greene") as the basionym for *Leptosiphon montanus* (Greene) J.M. Porter & L.A. Johnson comb. nov. Because Greene's var. *montanus* predates his *Linanthus montanus*, a new combination is proposed here:

Leptosiphon montanus (Greene) R. Patt., **comb. nov.** *Linanthus ciliatus* (Benth.) Greene var. *montanus* Greene, Pittonia 2: 260. 1892.

Leptosiphon minimus (H. Mason) Battaglia was based on *Linanthus bicolor* (Nutt.) Greene subsp. *minimus* H. Mason. Because Battaglia did not cite page number for the basionym, a new combination is proposed here:

Leptosiphon minimus (H. Mason) R. Patt., **comb. nov.** *Linanthus bicolor* (Nutt.) Greene subsp. *minimus* H. Mason, Madroño 9: 251. 1948.

ACKNOWLEDGEMENTS

I thank Kanchi Gandhi for help with interpretation of the Shenzhen code and John Strother for editorial comments.
